VISION 2030 ACTIVATION MAPPING REPORT

MARCH 2023

ABOUT THE MAPPING

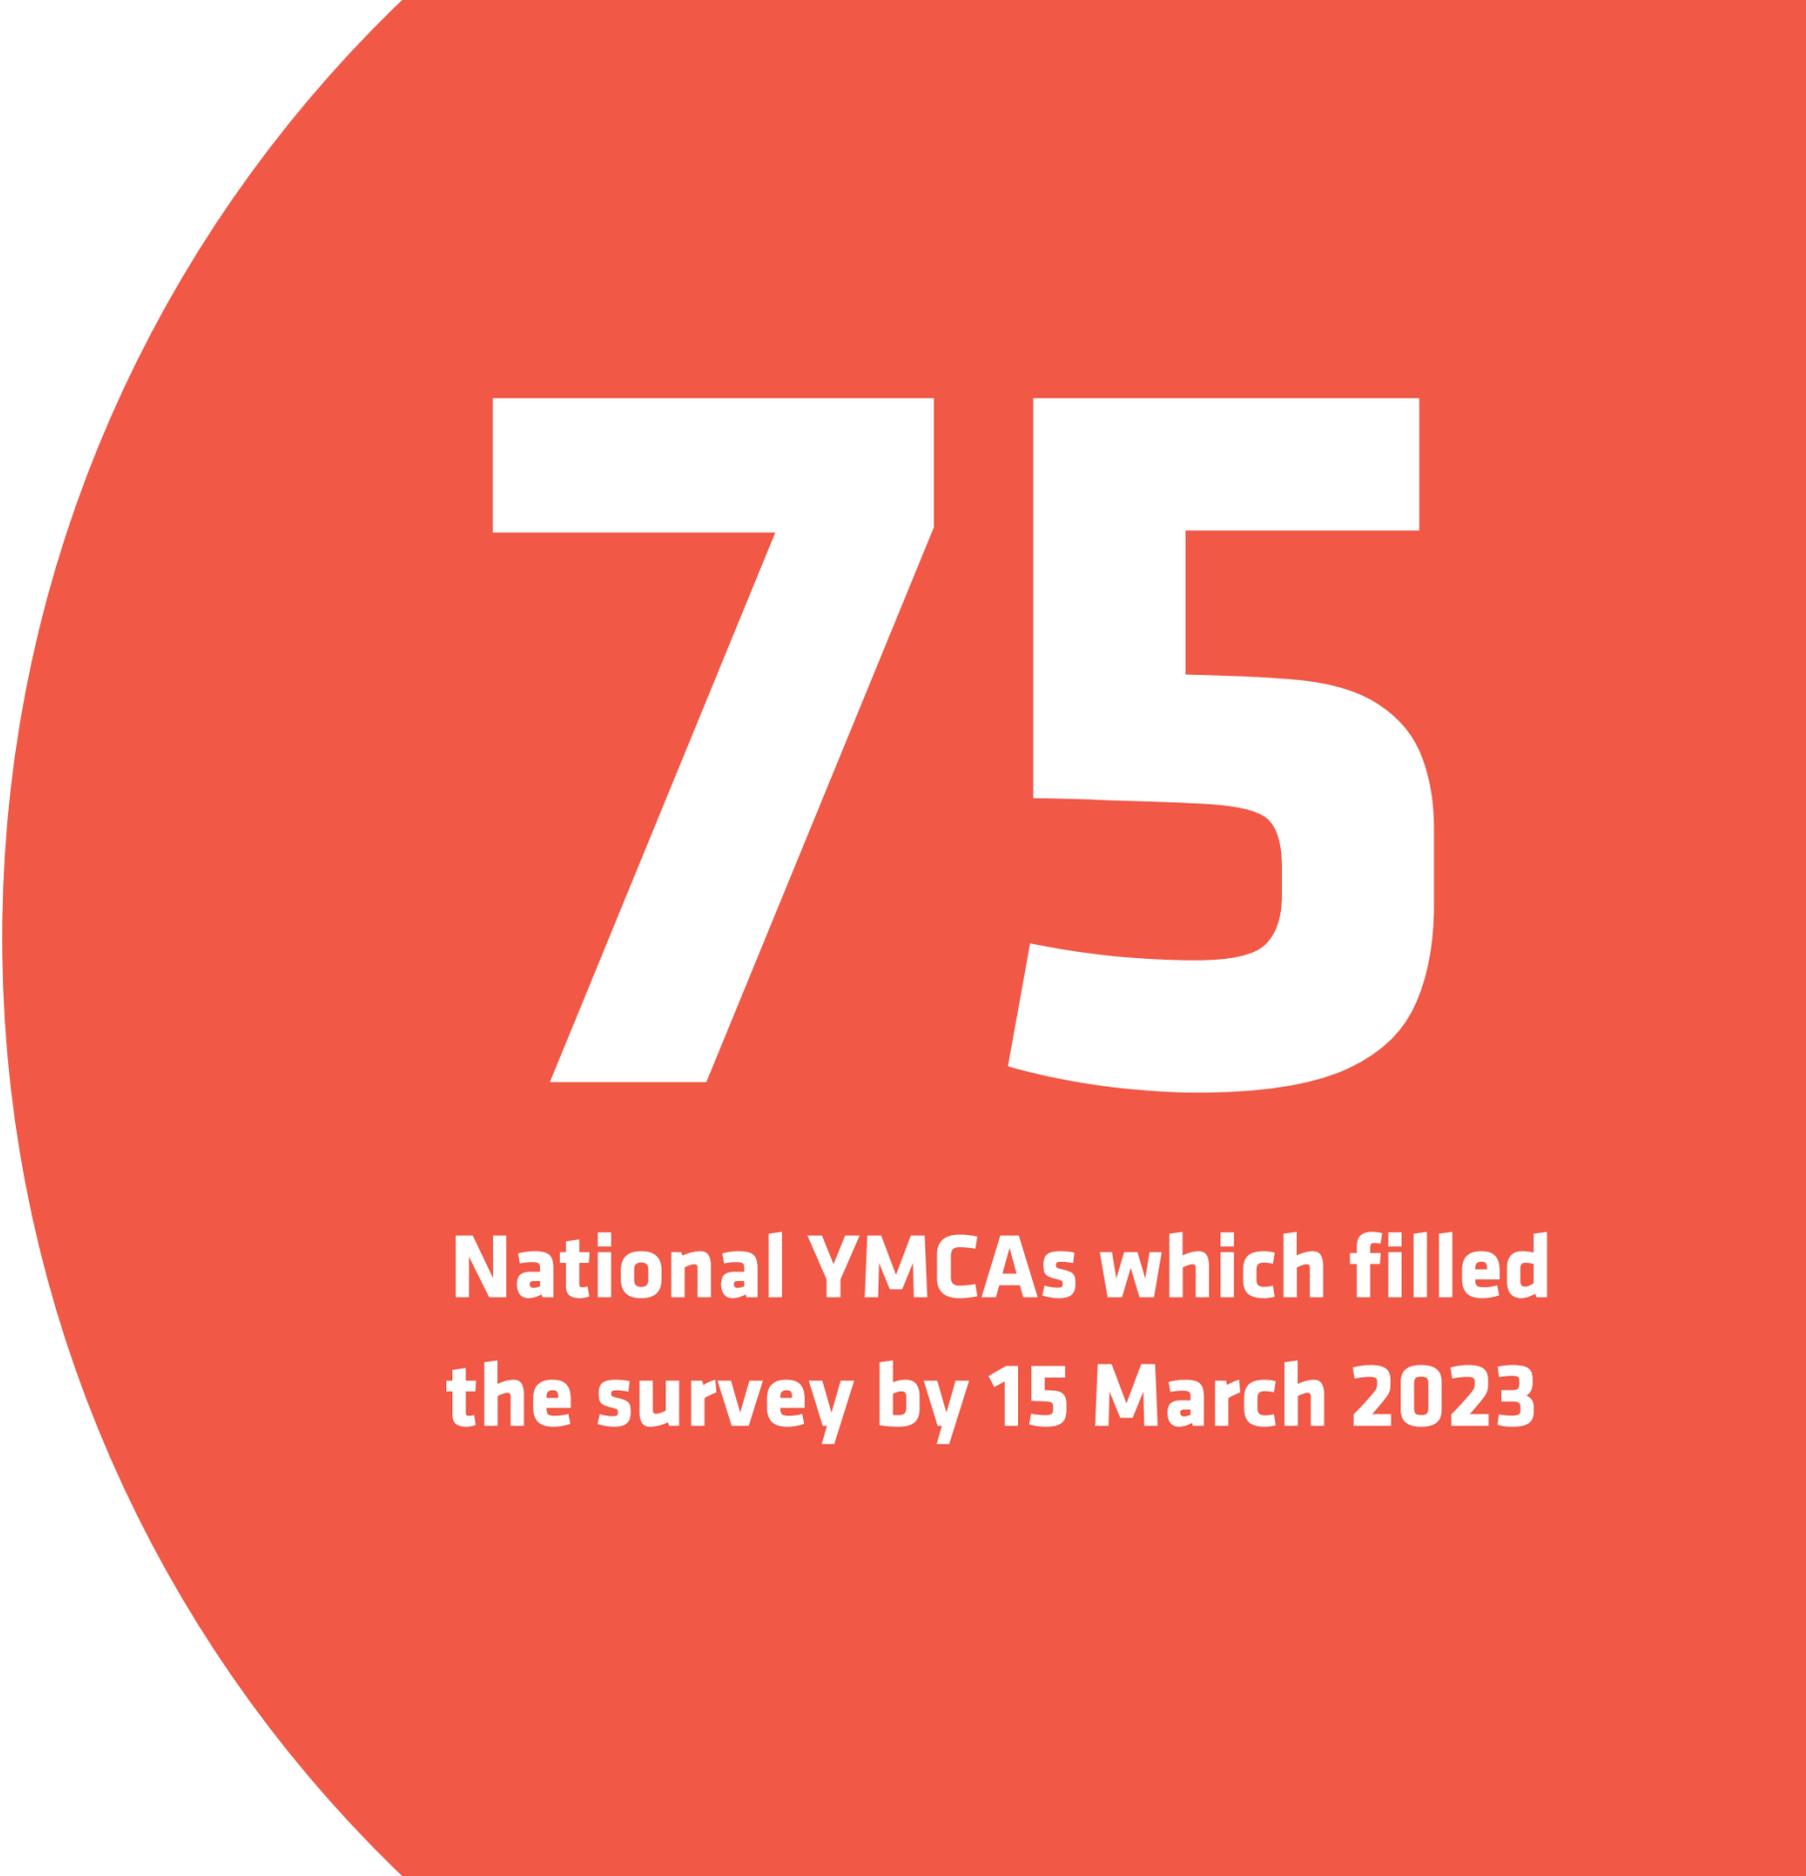

CONTEXT

Following the adoption of YMCA Vision 2030 in July 2022 and the launch of the Practical Guide for YMCAs in November 2022, a Movement-wide mapping process was started in February 2023.

The mapping process is open and continuous, YMCAs being able to simply edit their form whenever needed without having to refill the survey.

ABOUT THE DATA

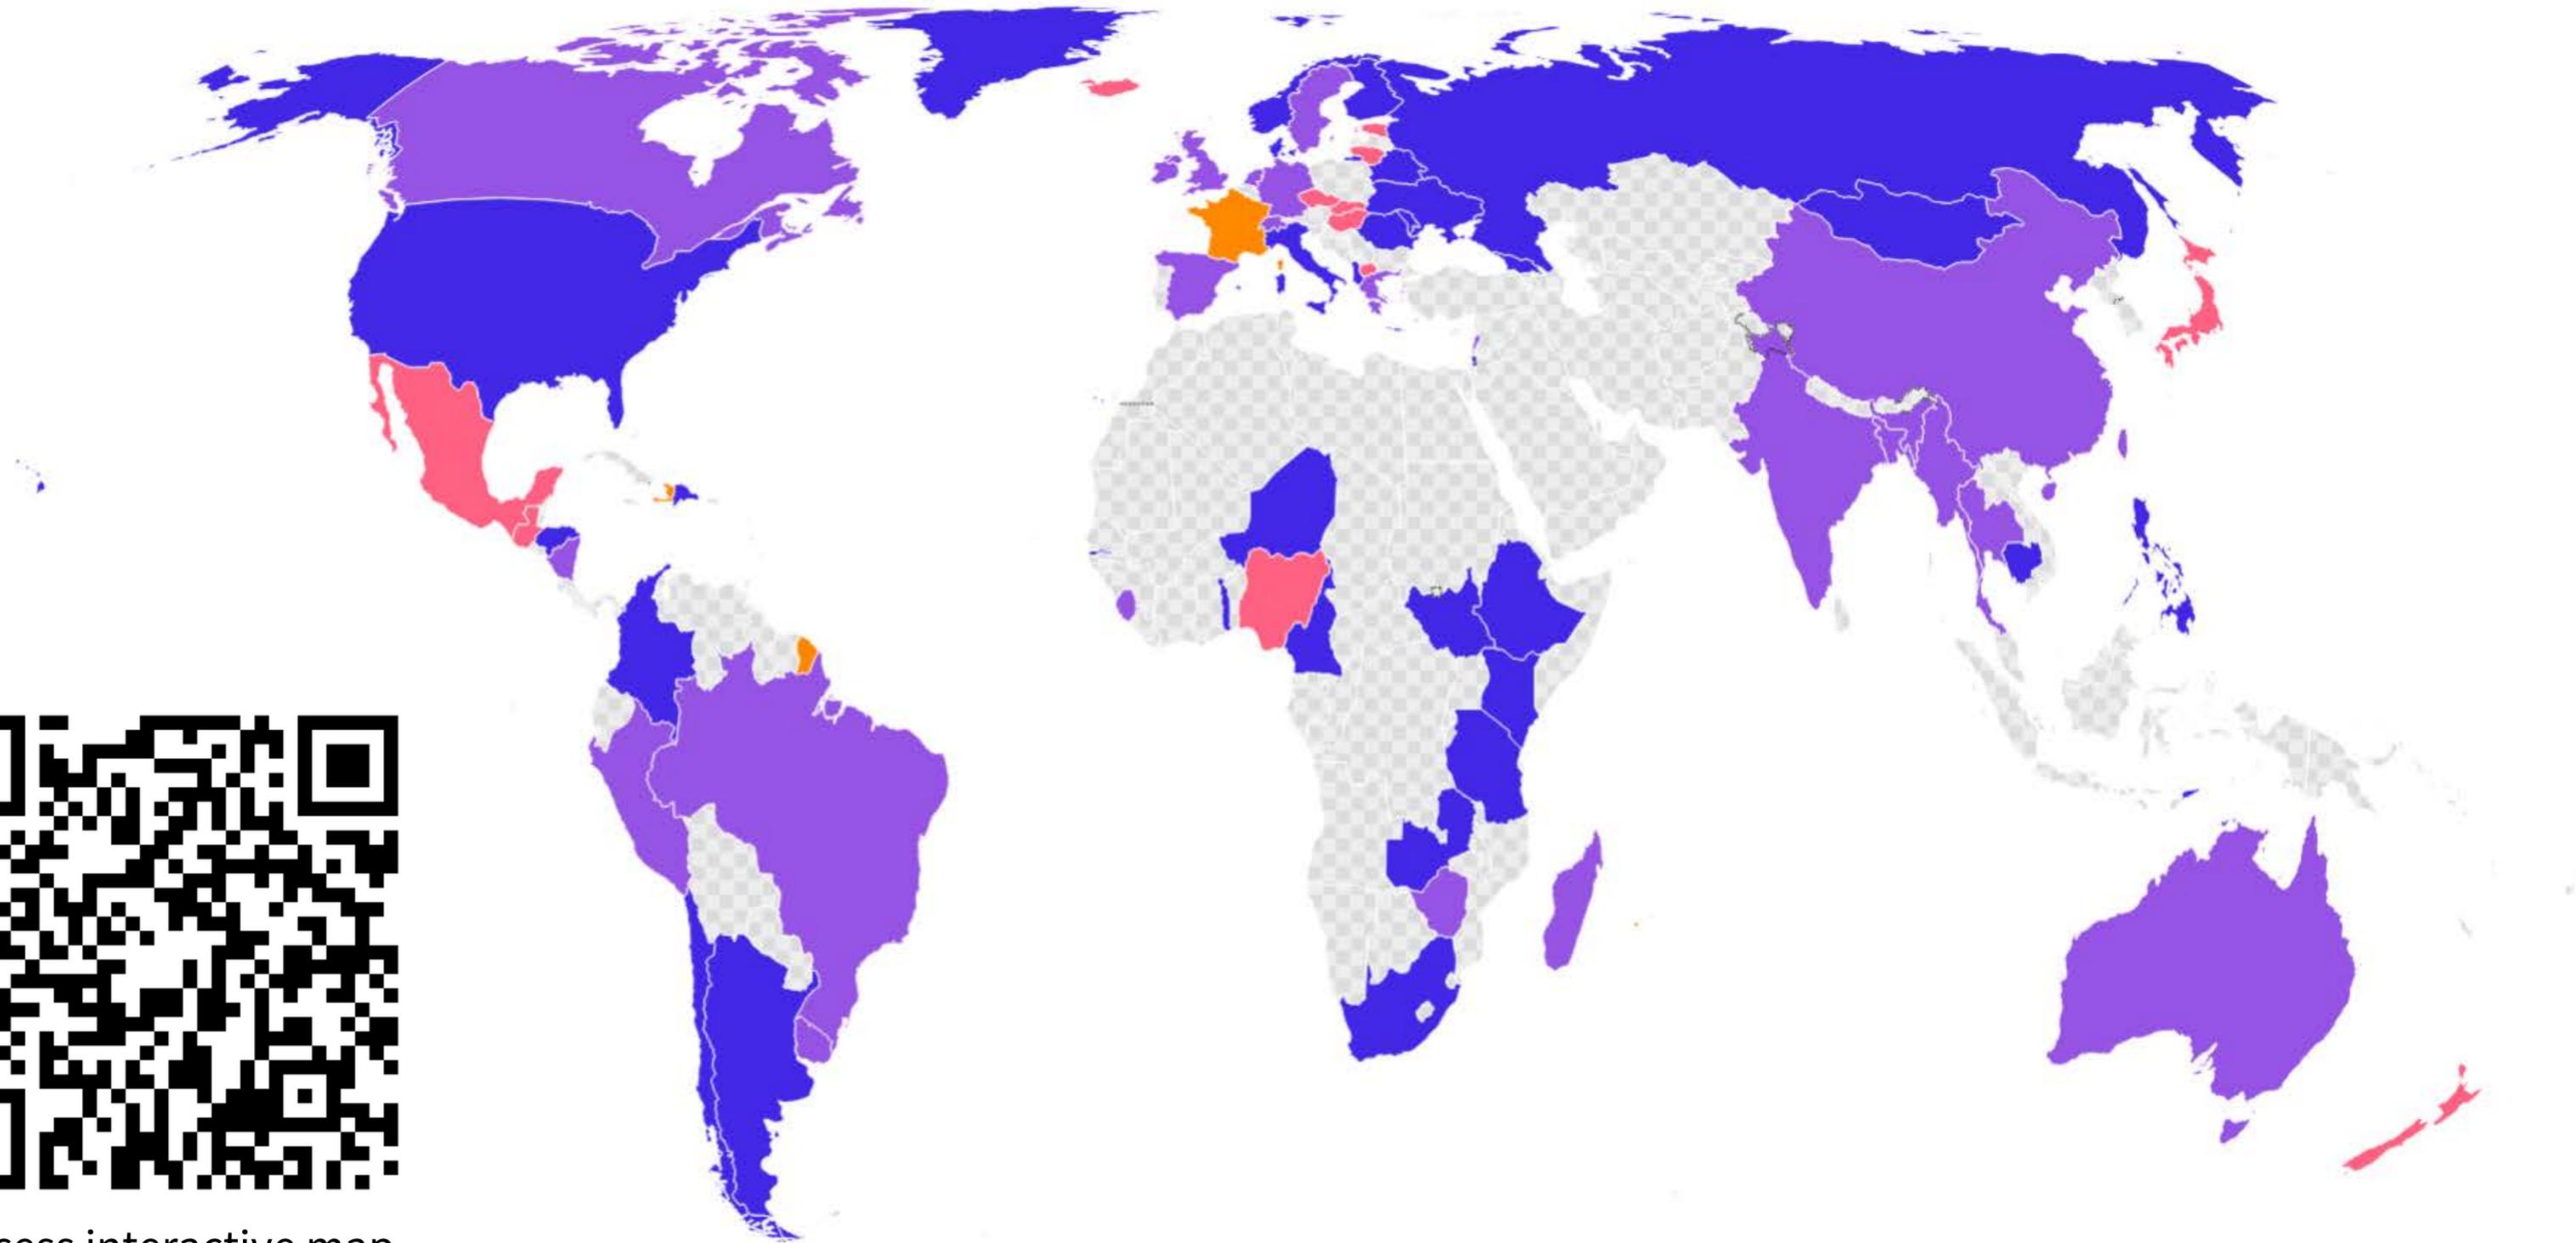

The mapping was done using the Salesforce platform and each National YMCA received a unique link with a set of 14 questions. The data presented in this report is based on the information submitted by National YMCAs by 15 March 2023. There has been no formal external validation of the data.

A large, bold white number '75' is centered on a red circular background that occupies the right half of the page. The number is composed of thick, blocky strokes.

Top Needs

Top Vision 2030 Opportunities

PRELIMINARY TAKEAWAYS

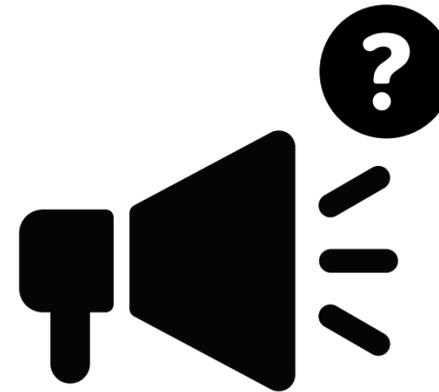

Strong engagement from the Movement on the survey

Pillar 1 is most active, Pillar 3 the least

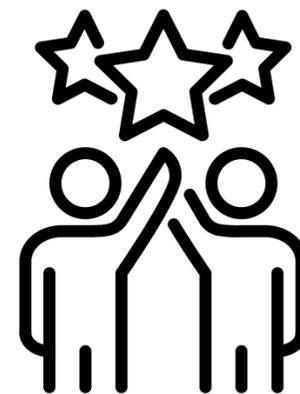

>50% of the Movement is already engaging with Vision 2030

Advocacy and internal goals have lower intake than community goals

Local YMCA engagement is a key joint challenge

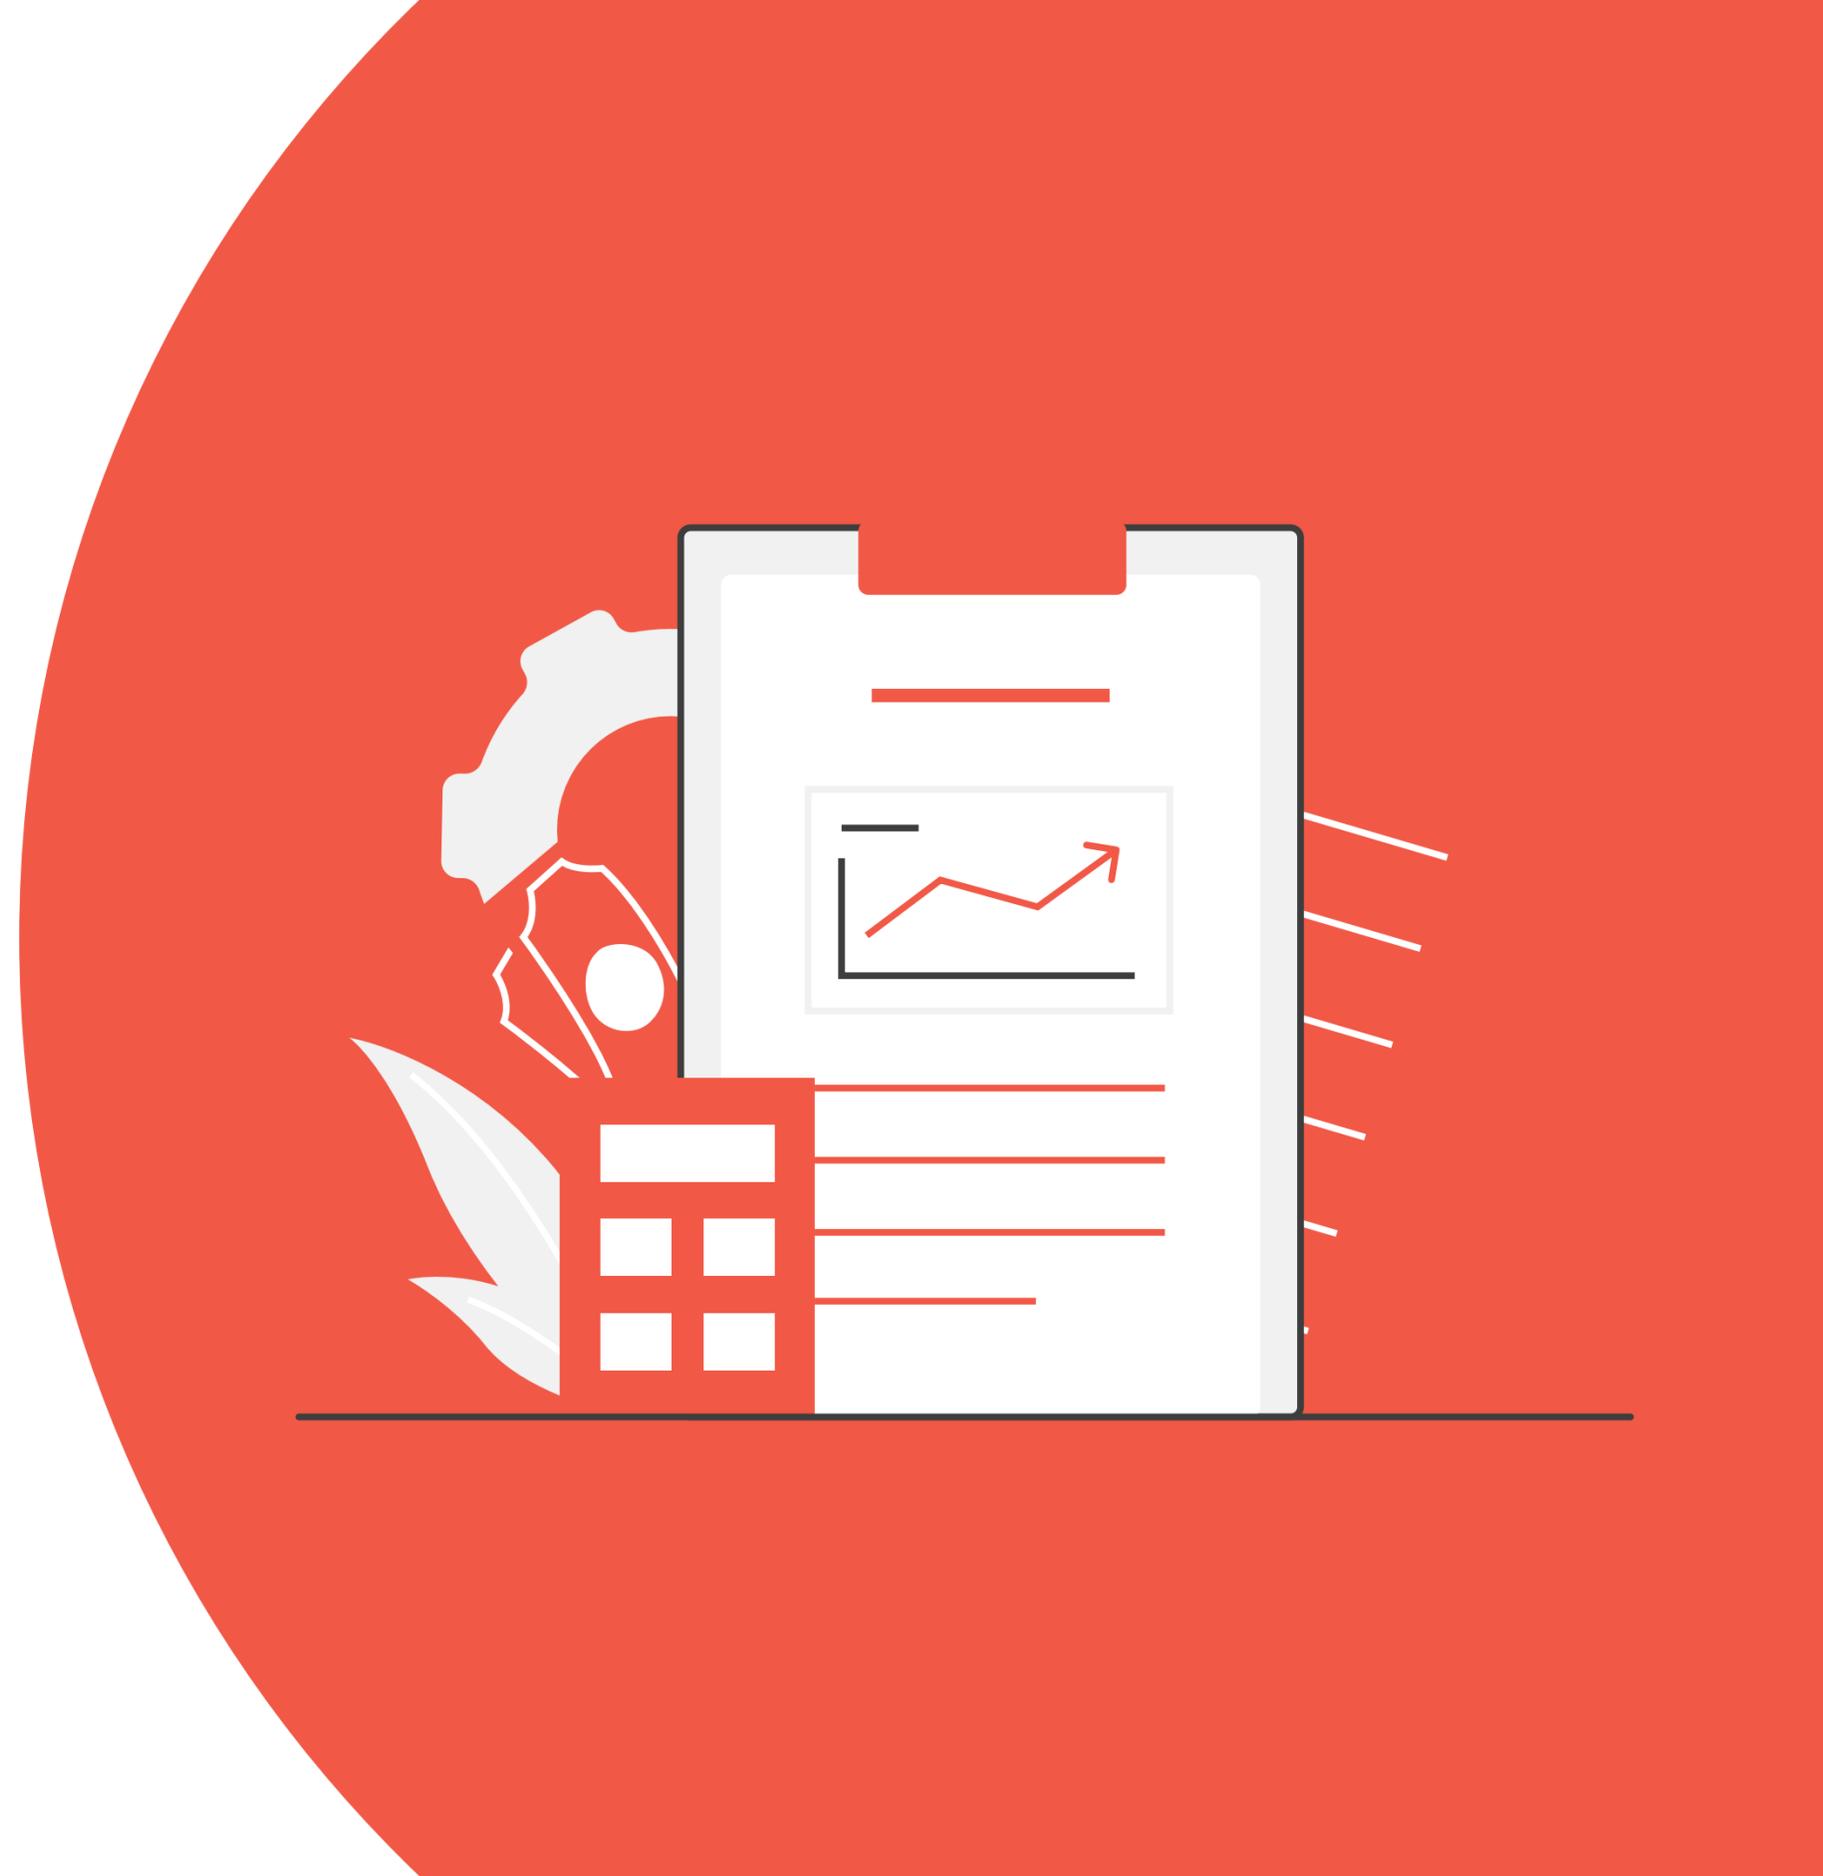

Vision 2030 offers a solid framework for National YMCAs

WHAT'S NEXT?

The mapping process will be continuous, so we invite National YMCA to use the same link in order to update their information whenever something changes.

A Mapping Report will be published regularly (2 reports in 2023, followed by 1 yearly report from 2024).
